

Governor Abbott,

I am back in Texas now and we are still being surrounded by agents of Donald Trump's criminal enterprise at all times. His gang of criminals flash their signs to me everywhere that we travel and his trucks spiral around our home day and night as we sit here attempting to live a normal life under the criminal regime of Donald Trump.

Truly, I want the Republican Party of Texas to know: you all failed me miserably. I am literally being threatened all day and night by your criminal leader. Republicans of Texas are a disgrace for continuing to support the criminal enterprise of Donald Trump. I will never recommend the Republican Party ever again. You failed us all. Your party failed us all. Your leader has ruined your party and I honestly do not believe that Republicans will ever be able to shed this reputation.

First, it was Richard Nixon's spying and now this. Honestly, this is unforgivable. We cannot forgive another out of control spying disgrace for a president.

What are we supposed to do, Governor Abbott? I have reported this to numerous official agencies and multiple areas of law enforcement. Yet, Donald Trump's team of criminals continues to nakedly spy on me and threaten both me and my wife.

America is a fake shell that is harboring and protecting a dangerous felon. Shame on you all for continuing to serve under his administration!
